Performance Characteristics

Replay Sport Surfaces are an attractive, durable, weather resistant and porous rubber surface, excellent for all kinds of recreational physical activity from basketball and tennis to yoga and gymnastics.

Replay Sport Surfaces are made from durable materials and are also available in a Nike Grind version with a range of cool colours to choose from when creating your own sustainable version of a Replay Sport Surface. Replay Sport Surfaces comply with the strictest of American safety and environmental standards.

Replay Sport Surfaces can be installed onto an existing or new concrete or tarmac sub base.
